

“NEW PARTNERSHIPS”

Arix International, Inc., is a leading manufacturer of vacuum types which include...HEPA vacuums; Electronic vacuums; Healthcare and MRI vacuums; Toner vacuums; office vacuums; clean room vacuums; integrated pest management (bug) vacuums; backpack vacuums; and the new upright vacuum, Mighty Mouth.

In addition, the company makes a complete line of HEPA and ULPA vacuums and filters. These too are industrial and commercial vacuum cleaners for toner, developer, dust and soot.

Arix also has created and implements copy tracking and print tracking solutions for the copier and digital printer industry.

ESD training is key to electrostatic discharge control. You understand the importance of electrostatic discharge prevention. You know an ESD control program is essential for quality and yield in electronics assembly. An effective, systematic, and sustainable ESD training, certification and re-certification system is key for any successful ESD control program, and essential to successful electronic manufacturing.
